PREFACE

The University of Dar es Salaam (UDSM) Facts and Figures 2019/2020–2023/2024 report provides valuable information that is useful in decision-making, administration, planning, and research. It also serves as a key resource for guiding the University's planning and development initiatives. This edition updates data from the previous report and presents the latest information using pie charts, histograms, tables, and narrative descriptions. It offers a summary overview of the entire University, while more detailed statistics for specific Units are included in Appendices A, B, and C. The information presented in this report is derived from data provided by University Units, including Colleges, Schools, Institutes, Directorates and Major Units. The primary sources of this data were the official databases maintained by each respective unit. The data was primarily sourced from the official databases maintained and regularly updated by each respective unit, ensuring accuracy, consistency, and reliability for informed decision-making and strategic planning.

This report is intended for public dissemination and serves multiple important purposes. Firstly, it acts as a comprehensive source of information on various aspects of the University of Dar es Salaam (UDSM) for a wide range of stakeholders, including University administrators, managers, planners, government departments, policymakers, academic and research staff, students, and the general public. Secondly, it offers essential insights to current and prospective development partners, donors, researchers, and collaborators regarding the University's performance and progress in its core areas of teaching, research, innovation, and knowledge exchange.

Furthermore, the data presented in this report contributes to enhancing the visibility and reputation of the University both locally and internationally, thereby positively influencing UDSM's standing in global and regional university rankings. Ultimately, the goal is for UDSM to continue producing updated editions of the *Facts and Figures* report regularly, ensuring that its current and potential stakeholders have access to accurate, up-to-date, and timely information that supports informed decision-making and fosters deeper engagement with the University.

Finally, I would like to extend my sincere appreciation to the Directorate of Planning, Development, and Investment (DPDI) for their dedication and commitment in successfully accomplishing this important and noble task. Their efforts in compiling, analysing, and presenting this comprehensive report are invaluable in supporting the University's strategic objectives and enhancing institutional transparency and accountability.

Prof. William A. L. Anangisye
VICE CHANCELLOR

ACKNOWLEDGMENT

The successful compilation of the UDSM Facts and Figures 2020/2021-2024/2025 report was made possible through the collective efforts and contributions of several individuals, Heads of University Units, and the University Management. I am deeply indebted to all those who, directly or indirectly, played a role in the preparation of this important report.

Specifically, I would like to extend my heartfelt appreciation to the Principals of the University's Constituent Colleges (MUCE and DUCE), Principals, Deans, Directors, and Heads of Major Units. I also recognize and thank all staff members who supported and facilitated the data collection processes within their respective Units in various capacities. Their cooperation, commitment, and timely response were instrumental in ensuring the accuracy, comprehensiveness, and overall success of this report.

In conclusion, I wish to express my sincere gratitude to the dedicated team at the Directorate of Planning, Development, and Investment (DPDI) for their tireless efforts, professionalism, and determination throughout the entire process. Their dedication and attention to detail were key to producing this comprehensive and informative report, which will serve as a valuable resource for the University and its stakeholders.

Prof. Bernadeta M. Killian

DEPUTY VICE CHANCELLOR - PLANNING, FINANCE AND ADMINISTRATION.

CHAPTER ONE

INTRODUCTION

1.1 The University of Dar es Salaam History

1.1.1 *Background*

The University of Dar es Salaam (UDSM) is the oldest and premier public university in Tanzania. It is situated 13 kilometers on the western side of the city of Dar es Salaam, occupying 1,625 acres on the observation hill, famously known as Mlimani in Kiswahili. It was established on 25th October 1961 as the University College Dar es Salaam (UCD), an affiliate college of the University of London. It was temporarily hosted in the premises belonging to Tanganyika African National Union (TANU) located in Lumumba Street, Dar es Salaam from its establishment up to 1964 when it was moved to the current location at the Hill. At its inception, it had only one faculty, the Faculty of Law, with 14 students among them one female, Julie Manning. In 1963, it became a constituent college of the University of East Africa together with Makerere University College in Uganda and Nairobi University College in Kenya. UDSM became a full-fledged university on 1st July 1970 through Act No. 12 of 1970.

Ever since UDSM has grown in terms of student intake, academic units, research capability and academic programmes. It has two constituent colleges: the Dar es Salaam University College of Education located in Dar es Salaam and the Mkwawa University College of Education, located in Iringa. There are also seven campus colleges, four schools and five institutes hosting numerous academic departments covering a wide range of programmes, making it a comprehensive university. The academic programmes offered lead to the award of certificates, diplomas, and undergraduate and postgraduate degrees. A total of 413 programmes including 17 PhD; 78 PhD by thesis; 169 Masters; 14 Postgraduate; 106 undergraduate; 18 certificate, and 11 diploma are offered in various academic units. They include evening study programmes designed to offer opportunities mainly to employed people, although any other interested person with requisite entry qualifications can apply. The number of students admitted has reached 42,927 in 2023/2024 academic year. Female students constitute 48 percent of all students, and more efforts have been underway to increase this ratio. Each year we receive an increased number of applications of students interested in joining our various programmes than the available current capacity.

At its Golden Jubilee in 2011, UDSM inaugurated its Vision 2061, a blueprint charting the way for its future development. Emphasis has been placed on research and postgraduate training. As a result, there has been improved outputs and the number of postgraduate students graduating each year has increased exponentially. Just as an illustration, compared to 94 students who graduated with PhD in 2020, the number increased to 122 in 2024. To cater for the increased number of postgraduate students UDSM introduced a mid-year graduation ceremony in 2019 and 47 PhD candidates were awarded their degrees in that maiden mid-year graduation. UDSM has also set a number of scholarships to cater for various categories of students wishing to pursue their undergraduate and postgraduate training.

	of Journalism and Mass Communication (SJMC). The Institute of Kiswahili Studies (IKS) was established.
2011	The College of Information and Communication Technologies (CoICT) was established.
2012	The Faculty of Law was transformed into the University of Dar es Salaam School of Law (UDSoL).
2013	The College of Humanities (CoHU) and the College of Social Sciences (CoSS) emerged after the splitting of CASS into two Colleges.
2015	The College of Agricultural Sciences and Fisheries Technology (CoAF) was established. The School of Health Sciences (SoHS) was established.
2018	The School of Health Sciences (SoHS) was transferred to Mbeya and changed into UDSM-MCHAS.
2020	University of Dar es Salaam School of Economics (UDSE), School of Mines and Geosciences (SoMG), School of Aquatic Sciences and Fisheries Technology (SoAF) and UDSM-MRI-Dodoma were established.
2024	University of Dar es Salaam new Campuses of Lindi and Kagera were established

CHAPTER TWO

UDSM OFFERED PROGRAMMES AND STUDENT PROFILES

2.1 UDSM Offered Programmes

The University offers a total of 337 diversity of programmes at the Certificate, Diploma, Bachelor, Postgraduate Diploma, master and PhD level to both local and international students.

Figure 1 presents the distribution (in percentage) of the academic programmes on offer by the 2024/2025 academic year, which comprise certificate (1%), diploma (3%), bachelor's (31%), Postgraduate diploma (4%), master's (35%) and PhD (26%). This shows that 65% of the University's programmes are at the postgraduate level, with the undergraduate level accounting for 35%. This large proportion of postgraduate programmes is a manifestation of the University's vision of becoming a leader in postgraduate training as described in section 3.1.1 of the UDSM'S Vision 2061. In the UDSM Vision 2061, the University has committed itself to investing in postgraduate training by allocating resources to staff development, infrastructural development and academic programmes to produce more academics to serve as lecturers at UDSM and for other Universities in Tanzania (See **Table A1** in **Appendix A** for detailed data on the programmes).

Figure 1: Proportion of Programmes Offered at Different Academic Levels, 2024/2025

2.2 Students' Profiles

2.2.1 First Year Registered Students

The number of first year registered students per programme for the period from 2020/2021 to 2024/2025 academic year is presented in **Figure 2** and **Figure 3**. The figure shows that the number of first year registered students to certificate programmes has dramatically increased

from 95 students in 2020/2021 to 390 students in the 2024/2025 academic year. This increase is attributable to the certificate programmes being accredited by the National Council for Technical Education (NACTE). The University has started seeking accreditation of all the certificate programmes by the Tanzania Commission for Universities (TCU) to attract more admissions.

The number of first year registered students to diploma programmes has increased from 274 students in 2020/2021 to 739 students in the 2024/2025 academic year. Also, the number of first year registered students to bachelor's degree programmes has dramatically increased from 12,332 students in 2020/2021 to 12,712 students in the 2024/2025 academic year. Similarly, the number of first year registered students to master's programmes has increased from 1,446 students in 2020/2021 to 1,448 students in the 2024/2025 academic year while the number of first year registered students in postgraduate diploma decreased from 98 in 2020/2021 to 82 in 2024/2025. The number of PhD students has increased from 161 in 2019/2020 to 230 in 2024/25 academic year as indicated in **Figure 2 and Figure 3**. The overall number of first year registered students to the University of Dar es Salaam programmes in the past five years has increased by 9 percent, from 14,248 to 15,601 students in the academic year of 2020/2021 to 2024/2025 as indicated in **Figure 2**. The increase in the number first year registered students is attributable to expanding capacity as evident by the construction of new lecture theatres, classrooms, students' hostels and the introduction of new programmes.

Figure 2: UDSM first year registered students for bachelor's Programs.

Figure 3: UDSM First Year Registered Students for Other Programs

The number of female first year registered students from 2020/2021 to 2024/2025 academic years has decreased significantly from 7,324 students in 2020/2021 to 6,961 students in 2024/2025 as indicated in **Figure 4**. Percentwise, in the 2019/2020 academic year 49 percent of the first-year registered students were females whereas in the 2024/2025 academic year 55 percent of the first-year registered students were females. The increase in the number of first year registered female students is due to strategic commitment of the University management to promote gender equality and address the gender gap at UDSM. In a bid to promote gender equality and address gender gap, the University has upgraded the Gender Centre into the Institute of Gender Studies and established a merit-based scholarship for undergraduates and postgraduate female students. In addition, the University conducts special sensitization campaigns in secondary schools for students to apply to the University of Dar es Salaam. **Figure 4** shows first year registered students in relation to gender. More details about students' registration are presented in **Table A2** in **Appendix A**.

Figure 4: UDSM First Year Registered Students by Gender

2.2.2 Students Enrolment

Table A3 and **Table A4** in **Appendix A** provide an overall summary of UDSM students' enrolment at undergraduate and postgraduate levels. **Figure 5** provides students' enrolment by gender while percentage distribution is presented in **Figure 6**. From **Figure 5** shows that, the enrolment has increased from 39,034 students in 2020/2021 to 40,918 students in the 2024/2025 academic year, which is an increase of 5 percent. The increase in the number of enrolled students from 2020/2021 to 2024/2025 academic year was due to the factors explained in the second paragraph of Section 2.2.1 of this report.

Similarly, the proportion of female students to the students' annual enrolment has increased from 47 percent in 2020/2021 to 53 percent in the 2024/2025 academic year as indicated in **Figure 5**. This increase was occasioned by factors explained in the third paragraph of Section 2.2.1 of this report. Along with the current institutional initiatives aimed to consolidate the UG and expansion of PG programmes, the University's strategy is to raise the proportion of female students to at least 50 percent to attain gender parity.

Figure 5: Overall Enrolment Trends in Relation to Gender

Figure 6: Overall Student Enrolment Percentwise by Gender

The number of enrolled UG students has increased by 10 percent from 34,406 students in 2020/2021 to 38,304 students in the 2024/2025 academic year. However, the number of enrolled PG students decreased by 56 percent from 4,628 students in 2020/2021 to 2,614 students in the 2024/2025 academic as indicated in **Figure 7**. This suggests that the University should continue implementing its strategic plan of becoming a leader in postgraduate education by allocating more resources to increasing enrolment of PG students.

Figure 7: Undergraduate and Postgraduate Enrolment Trends

2.2.3 Students' Graduation

Figure 8 provides a summary of the University students' graduation for the past five years. The trend indicates that UG students' graduation has increased from 9,316 graduates in 2020/2021 to 10,575 in the 2024/2025 academic year. The number of PG students' graduation increases from 782 graduates in 2020/2021 to 1,125 graduates in the 2024/2025 academic year. This suggests that there is a need for the University to continue ensure that PG students

complete their studies on time. Any delays in the completion of studies could impair the utilisation of resources available such as staff and laboratories.

Generally, the overall number of graduating students has increased from 10,098 in 2020/2021 to 11,700 graduates in the 2024/2025 academic year as indicated in **Figure 9**. The number of female graduates increased from 4,427 graduates in 2020/2021 to 6,004 graduates in the 2024/2025 academic year. The increase in the number of female students graduating is attributable to continuing increase in female students' enrolment as explained in section 2.2.1. Supporting details of the students' graduation from all programmes are presented in **Tables A5 - A21** under **Appendix A**.

Figure 8: UDSM Students's Graduation Trends

Figure 9: UDSM Students' Graduation by Gender

2.2.4 Enrolment Students with Disability

Figure 10 shows the number of students with disabilities (SWDs) at UDSM. Enrolment increased with 50 students in 2020/2021 to 169 students in 2024/2025. Supporting details of the students 'with Disability are presented in **Tables A22** under **Appendix A**.

CHAPTER THREE

TEACHING AND LEARNING

3.1 Academic Staff Profiles

Continued existence of the University depends on a steady supply of quality human resources with the right mix of qualifications, gender, age, rank, and experience, among other factors. From 2020/2021 to 2024/2025 academic year, the number of staff of the University of Dar es Salaam and its constituent colleges has increased from 1,941 in 2020/2021 to 2,301 staff in the 2024/2025 academic year as shown in **Figure 11**. The increase in the number of staff affirms the University's commitment to the realization of quality and inspired staff as described by one of the three pillars of the UDSM's Vision 2061. Furthermore, this increase seeks to cater for the rising number of enrolled students during the same period.

3.1.1 UDSM Academic Staff by Gender

Figure 11 provides an overview of the UDSM's faculty (permanent, contract and part-time) by gender from 2020/2021 to the 2024/2025 academic year. The figure shows that the number of female faculty members has increased from 537 in 2020/2021 to 681 in the 2024/2025 academic year. Moreover, **Figure 12**, **Figure 13** and **Figure 14** provide an overview of the academic staff situation by gender at the MJKN Mlimani Campus, DUCE and MUCE, respectively. All other supporting details of the staff profile are presented in **Tables B3- B17** in **Appendix B**.

Figure 11: Overall UDSM's Academic Staff by Gender

Figure 12: MUCE Academic Staff by Gender

Figure 13: DUCE Academic Staff by Gender

Figure 14: MJKNM Academic Staff by Gender

3.1.2 UDSM Academic Staff by Age

Figure 15 to Figure 17 present the age profile of academic staff. For the 2024/2025 academic year, academic staff aged above 60 years were 41 whereas 66 staff were aged of 56 - 60. This age profile suggests that in the next few years these 66 staff would also be aged above 60 years. The higher number of staff aged above 60 years may be due to the statutory extension of the retirement age from 60 to 65 years for senior lecturers and those in the professorial ranks. However, there is a need for the University to focus on implementing the UDSM's succession plan to avoid skewing the number of staff towards higher age.

For the 2024/2025 academic year, the UDSM statistics show that 52 percent of the overall academic staff were aged between 26 and 40 years whereas the remaining 48 percent were aged above 40 years. This implies that, the University has a favourable balance between junior staff with little experience and senior staff who can share experiences and pass on skills to groom the upcoming staff as part of the mentoring process.

For the 2024/2025 academic year, the analysis shows that 20 percent of the academic staff aged under 41 years are PhD holders, 74 percent of academic staff aged between 41 and 50 years have PhDs and 98 percent of academic staff aged above 50 years have PhDs as indicated in Table 1. The University through its Vision 2061 strives to be a leading centre of intellectual wealth spearheading the quest for sustainable and inclusive development. Thus, deliberate efforts should be made to train and recruit more academic staff at the master's and PhD levels to ensure the smooth running of academic programmes. If this is not addressed in the short-term, the reputation of the University will be compromised to a great deal. Details of academic staff by age and gender are provided in **Tables B3 to B17** presented in **Appendix B**.

Table 1: UDSM Academic Staff by Age and Qualification, 2024/25

Age	Bachelor	Master	PhD	Total	PhD%

3.1.3 UDSM Academic Staff by Rank

Figure 18 shows the number of UDSM's academic staff (total permanent, on contract and part- time) by rank for the 2020/2021 to 2024/2025 period. The figure shows that the number of assistant lecturers was the highest among the ranks in every year during the period reported. In fact, the number of tutorial assistants has increased from 176 in 2020/2021 to 312 in the 2024/2025 academic year, as indicated in **Figure 18**. The number of lecturers has increased from 603 in 2020/2021 to 697 in the 2024/2025 academic year. Both assistant lecturers' and lecturers' promotions are mainly based on successful completion of the master's and PhD studies. Implicitly, the University has been allocating sufficient resources to support the faculty development and a good number of the academic staff complete their studies successfully. The number of senior lecturers, increase from 211 in 2020/2021 to 329 in 2024/25, Also associate professors increased from 90 in 2020/2021 to 97 in 2024/25 and professors has increased from 29 in 2020/2021 to 31 2024/2025 academic year, as **Figure 18**

illustrates. Senior lecturer-ship, associate professorship and professorship become tenable mainly upon fulfilment of the set publication points alongside the teaching component. The decrease in number of staff in the positions of professorial ranks may be attributed to lack of motivation among academic staff to publish in reputable journals. It is anticipated that, with the provision of competitive research grants (which encourage academic staff to conduct more research), more staff would find cause to publish and raise both their scholarly standing and prospect for promotion to senior ranks. In this regard, the University is making concerted efforts to ensure that every academic staff publishes at least one journal paper in every year in a reputable publication.

By the 2024/2025 academic year, the University had 14 percent tutorial assistants, 37 percent assistant lecturers, 30 percent lecturers, 14 percent senior lecturers, 4 percent associate professors and 1 percent professors, as **Figure 19** illustrates:

Figure 18: Number of UDSM Academic Staff by Rank

Figure 19: Proportion of UDSM Academic Staff by Rank, 2024/2025

3.1.4 Academic Staff Recruitment

The recruitment plan enables the University to replace, fill new vacancies and ensure continued supply of qualified staff. Employment permits issued from time to time by the Government enable the University to recruit new staff. The timing and conditions of employment spelled

out in the permits dictate the realisation of the UDSM's Succession Plan. In the last five years, 421 academic staff were recruited, with a large portion of them being tutorial assistants (48%) and assistant lecturers (32%). The introduction of junior staff into the University academic service addresses adverse effects on age, rank and qualifications that are direct outcomes of freezing employment in public sector, including universities in the early 1990s. Policy and associated programmes for training and developing staff need to be conceived and implemented. Table B21 in **Appendix B** provides an overall (UDSM level) status of the recruitment of academic staff by year, rank and gender. **Tables B19, B20 and B21** in **Appendix B** presents data on the recruitment status at MJKN Mlimani Campus, DUCE and MUCE respectively.

3.1.5 Academic Staff by Employment Status

Figure 20 indicates UDSM's employment by status with permanent employment dominating the status. Next to permanent are the contract and part-time status among faculty. Further findings show that for the past five years ending 2024/25 academic year, the proportion of academic staff employed on permanent terms ranged from 79 percent to 86 percent of total academic staff. This implies that, the UDSM has a spine to perform core functions. During the same period, the proportion of staff on contract terms ranged between 0.3 percent and 23 percent while part-time staff between 13 percent and 19 percent. Employment on contract and permanent terms is granted to spread evenly the workload in a particular area, and retain experience and skills deemed necessary for not only fulfilling key organisational functions but also for nurturing junior academics to attain projected outcomes. As such, a steady supply of permanent quality and appropriate human resource is important for institutional memory and continued provision of quality training services, conducting research, and offering quality public service to the Government, global agencies such as the UN, the World Bank, the European Union and the society at large. Detailed data on academic staff by employment status and gender are provided in **Tables B22 – B27** in **Appendix B**.

Figure 20: UDSM Academic Staff by Employment Status

3.1.6 Academic Staff by Citizenship

About 99.7 percent of the academic staff at UDSM are Tanzanians whereas the remaining 0.3 percent represents staff of different nationalities as **Figure 21 illustrates**. **Figure 22** and **Figure 23**, on the other hand, expose the need to exert deliberate efforts aimed to ensure favourable conditions and attractive policies are in place to enhance the international standing of the UDSM. **Tables B28 – B43** in **Appendix B** present further details on UDSM academic staff by citizenship:

Figure 21: UDSM MJKNM Campus Academic Staff by Citizenship

Figure 22: DUCE Academic Staff by Citizenship

Figure 23: MUCE Academic Staff by Citizenship

3.2 Technical Staff

Technical staff assists academic staff in the delivery of teaching and practical. Technical staff are responsible for the preparation and supervision of workshops, laboratories and studio sessions. Technical staff include cadres such as laboratory technicians, laboratory scientists, workshop instructors, and studio technicians. This category of staff is reported in terms of gender, age and academic qualification.

The age proportion of technical staff for year 2024/25 is presented in in **figure 22** among them, 56 percent are aged below 41 years and the remaining 44 percent are aged above 40 years. Most of the technical staff have been in service for a long time, accumulating experience that is crucial in meeting individual roles and mentoring incoming junior staff. Furthermore, over 48 percent of technical staff possessed a diploma or lower qualifications. With the guidance of a succession plan, the University has laid out a strategy for increasing capacity through training of junior staff and timely replacement of vacancies that will be left by staff that are expected to leave services in next few years. **Figure 24, Figure 25, Figure 26 and Figure 27** provide an overview of the technical staff by their qualifications at the University of Dar es Salaam. Meanwhile, detailed information on the same aspect is obtainable in **Tables B44 - B59** a presented in **Appendix B**.

Figure 24: UDSM Technical Staff by Age and Academic Qualification

Figure 26: DUCE Technical Staff by Academic Qualification

Figure 27: MUCE Technical Staff by Academic Qualification

3.3 Administrative Staff

Administrative staff provides support service to enable the University to fulfil its key functions of teaching, research and public services. The administrative staff category include cadre such as accountants, administrators, planning officers, nurses, medical doctors, journalists, marketing officers, security officers, janitors, secretaries, office attendants and drivers. This category of staff is reported in terms of gender, age and academic qualifications.

3.3.1 Administrative Staff by Age and Academic Qualification

The age structure of administrative staff is evenly spread with about 45 percent in the age range below 41 years and the remaining 55 percent aged above 40 years. About 48 percent of the administrative had an undergraduate (first) degree, masters or PhD whereas 52 percent had a diploma or even lower qualifications. The employer stands to gain more from this cadre through needs-based training and development. **Figure 28, Figure 29, Figure 30 and Figure 31** provide an overview picture of administrative staff with their academic qualifications. Detailed information on administrative staff is obtainable in **Tables B60 - B75** as further elaborated by results presented in **Appendix B**.

3.4 Research and Publications

Research is one of the University's three core functions. This section presents information on the number of research projects completed or in progress, UDSM's active journals, publications by UDSM's staff, professorial chairs, and research grants offered in various disciplines.

3.4.1 Research Projects Completed or in Progress

The number of research projects registered at the UDSM has increased from 294 projects in 2020/2021 to 776 projects in the 2024/2025 academic year, as indicated in **Figure 32**. This remarkable increase in the number of registered research projects is due to the introduction of competitive research grants for the UDSM's staff. Also **Figure 33** presents the value of Research projects in 2020/2021 was TZS 16.9 billion increased to TZS 28.1 billion in 2024/2025 academic year as shown in **Figure 33**. Further details of research projects are provided **Table B37** in **Appendix B**.

Figure 32: UDSM's Completed and In-Progress Research Projects

Figure 33: UDSM's Research Projects Value

3.4.2 UDSM's Active Institutional Journal

Figure 34 presents the active journals were 23 in 2020/2021 and 24 in 2024/2025. Since the 2017/2018 academic year, the University has introduced rigorous quality assurance research whereby UDSM's journals are annually evaluated against predetermined standards for local and international recognition. Journals, which do not pass the set criteria, lose their status as active institutional journals of the UDSM. This sanction against faltering journals explains the decrease in the number of active journals from 2020/2021 academic year. **Table B37** in **Appendix B** provides further information on the active journals.

Figure 34: UDSM Active Institutional Journals

3.4.3 Journal Articles Published by UDSM Staff

In 2020/2021, the University published 626 articles in various journals whereas in the 2024/2025 academic year the University published 840 papers in various journals as indicated in **Figure 35**. The number of journal papers published by the UDSM's researchers from 2020/2021 to the 2024/2025 academic year is a cumulative sum of papers published in every year, which is 4,362 journal papers. Further details are provided in **Table B37** in **Appendix B**.

Figure 35: Number of Journal Articles Published by UDSM's Staff

3.4.4 Conference Papers Published UDSM Staff

The number of conference papers published by UDSM staff per annum increased from 105 papers in 2020/2021 academic year to 211 papers in 2024/2025 academic year as indicated in **Figure 36**. **Table B37** in **Appendix B**. provides more details on conference papers.

Figure 36: Number of Conference Papers Published by UDSM Staff

3.4.5 Books Published by UDSM Staff

The number of books published per annum by UDSM staff has decreased from 17 books in 2020/2021 to 10 books in the 2024/2025 academic year as indicated in **Figure 37**. A detailed breakdown of the published books is presented in **Table B37** in **Appendix B**.

Figure 37: Number of books published by UDSM staff

3.4.6 Book Chapters Published by UDSM's Staff

The number of book chapters published per annum by UDSM staff has increased from 69 book chapters in 2020/2021 to 90 book chapters in 2024/2025 as indicated in **Figure 38**

Figure 38 Book Chapters Published by UDSM Staff

3.4.7 Professorial Chairs

The position of Professorial Chair is an academic position created in recognition of an eminent scholar's significant contribution to scholarship and research and/or development of the University. It is awarded to a person at the professor level who has distinguished them in the discipline they represent. In the 2024/25 academic year, the University of Dar es Salaam had the following professorial chairs:

1. Mwalimu Nyerere Professorial Chair in Pan Africanism;
2. Mwalimu Nyerere Professorial Chair in Kiswahili;

3.5 Consultancy and Public Services

Conducting consultancy is one of the core functions of the University of Dar es Salaam. In this regard, the University conducts consultancy services in order to ensure that its expertise benefits the community and serves as a means for the University's income generation. Through the Directorate of Public Services, the University ensures that consultancy services are offered to the community with the highest level of professionalism, ethical considerations and integrity. In this regard, the University has policy and regulations in place to guide the conduct of consultancy services. Moreover, every consultancy work is registered in the Consultancy Management System for easy monitoring.

3.5.1 Consultancy Projects and Value

The number of consultancy projects registered has increased from 99 in 2020/2021 to 108 projects in the 2024/2025 academic year (see **Figure 39**). Similarly, the value of consultancy projects was **TZS 4.19 billion** in 2020/2021 then increased to **TZS 12.55 billion** in 2024/2025 academic year as indicated in **Figure 39** and **Figure 40**. Detailed data on the consultancy value is presented in **Table B38** in **Appendix B**.

CHAPTER FOUR

FINANCIAL RESOURCES AND STUDENTS' ACCOMMODATION

4.1 Budget Performance

One of the pillars that would enable the University to realize its Vision 2061 is the availability and sustainability of resources. Annual budgets that are endorsed by the University Council (for UDSM MJMN Campus), the respective College Boards (for DUCE and MUCE) and submitted to the Government for final approval cover costs for personnel emoluments, capital development, and other operating costs. In the recent years, the Government has been approving only around 90 percent of the Council/College Board budgets request, and the average actual receipts have been up to 76 percent of the Government approved budget (see **Figure 41**). The Government has been supporting Personnel Emolument budget and partial capital development budget for the construction of the halls of residence, office buildings, lecture theatres, and rehabilitation of various infrastructures whenever funds are available. The University continues to implement cost-cutting measures and diversifying income-generating activities as stated in Section 4.3 of the UDSM's Vision 2061. **Figure 42**, **Figure 43** and **Figure 44** depict the financing trend of the UDSM MJNM Campus' budget and those of the two Constituent Colleges 'along with the actual receipts. Details of the UDSM's financial performances appear in **Tables C1 - C8** in **Appendix C**.

Figure 44: MUCE College Board Budget Request, Government Approved Budgets and Actual Receipt

4.2 Internally-Generated Income

Figure 44, Figure 45 and Figure 46 detail the income generated per annum at the MJNM Campus, DUCE and MUCE, respectively from 2020/2021 to the 2024/2025 academic year. Internally-generated income for the MJNM Campus has increased by 8.7 percent from **TZS 50.6 billion** in 2020/2021 to **TZS 55 billion** in the 2024/2025 academic year as indicated in **Figure 44**. The increase in internally-generated income is attributable to the rise in the number of admitted students and strengthening of revenue collection measures. Internally-generated revenue for MUCE was **TZS 7.31 billion** in 2020/2021 and **TZS 7.09 billion** in 2024/2025 academic year as illustrated in **Figure 46**.

4.3 Students' Accommodation Facilities

University students have a free choice to stay in the University hostels or rent accommodation in private hostels, residential houses or apartments located in the neighborhood. With 40,918 students' enrolment for the 2024/2025 academic year, the University accommodation capacity available is to cater for only **36 per cent** of the population. The University recognises that the type of accommodation at the disposal of its students affects the overall learning process and, eventually, the quality of graduates. The prevailing accommodation status places an unavoidable need to rehabilitate the halls of residences currently available in addition to developing more facilities in the spirit of further enhancing the quality of learning. **Table C9** in **Appendix C** provides the 2024/2025 academic year enrolment figures, installed capacity for students' accommodation and actual occupancy. Details of accommodation at the MJKNM Campus and the two constituent colleges of DUCE and MUCE are presented in **Tables C10** to **C12** in **Appendix C**.

Table C9: UDSM Accommodation Capacity, Enrolment, Occupancy, Accommodation Capacity Vs Enrolment and Occupancy, Year 2023/2024

Campus	Accommodation Capacity	Enrolment	Occupancy	Capacity Vs Enrolment	Capacity Vs Occupancy
[1]	[2]	[3]	[4]	[2]/[3]	[2]/[4]
MJKNMC	12,960	29,268	10,783	44	100
DUCE	1,048	5,692	658	8	100
MUCE	1150	5,958	1108	19	100
Total	15,158	40,918	12,549	36	100

CHAPTER FIVE

CONCLUSION

The *Facts and Figures Report* contains information that inform various important decision for the University as well as its diverse stakeholders and public. The report presents a composite picture of the University of Dar es Salaam from 2020/2021 to the 2024/2025 academic year regarding academic programmes, students' profiles, staff profiles, research and publications, consultancy services, financial resources and students' accommodation. Such an array of data can help the University in decision-making in respect of any arising challenges and prioritisation of tackling these challenges based on available resources, innovation and the University's time- tested expertise. The report further provides a synopsis of the extent to which the University has been implementing its core functions with respect to the UDSM's Vision 2061 and its multi- faceted strategic plans congruent with its status as a comprehensive University in Tanzania, Africa and the world.
